*"HEALTHMATICS EMR has really eased practice flow for us. We won't go back to the old way of doing things!"*

*"Our physicians really like the remote access when needed."*

**Kurt Bernsdorff, MD**

*"A4's reputation in the industry made the choice obvious for us – our office thrives on the reliability and functionality of this application"*

**Sharon Squire, RN and Office Manager**

### SEEKING THE BEST SOLUTION

HEALTHMATICS® EMR was chosen primarily because of the user-friendly, Windows® environment. Additionally, the wide range of functionality of the application was exactly what Digestive Health Care of Northwest Ohio was looking for.

In the words of DeAnna Jakubowski, CMM, "A4's reputation in the industry made the choice obvious. The system is known not only to be reliable and the support excellent, but it really meets the physicians' needs."

### COUNTING THE BENEFITS

Other favorite features Digestive Health Care has appreciated since implementation of HEALTHMATICS EMR have been:

- Improved documentation quality
- Multi-user access
- Real time chart and patient information access
- Remote access availability

*"We love the paperless chart! There are no more lost charts or misfiled papers. The real time access to patient information and the easy, accurate documentation continues to save our facility time and money."*

**Sharon Squire, RN and Office Manager**

### LOOKING AHEAD

Like many other practices, Digestive Health Care of Northwest Ohio is continuously looking for ways to improve practice efficiency and patient care in many ways, including through technology. They would like to update their other existing technology to be as current as HEALTHMATICS EMR.
